Fabric Requirements

Fussy-cut fabrics highlighted below: You may need more or less yardage than the amount listed, depending on the placement of the fussy-cut motif in relation to where in the design repeat your particular cut yardage begins. Before specifying a cut amount to purchase at a fabric shop, it's best to know what pieces need to be fussy cut and check the placement in person.

Instructions

- All seam allowances are $\frac{1}{4}$ " (.64cm)* and pieces are sewn right sides together. Press seam allowances open unless otherwise stated. Label Units as they are made. Unit/ Panel sizes are listed width x height and include seam allowance.
- *It is important to sew with an accurate seam allowance here as each seam loses a small amount to the thread in the seam and the fold of the cloth. Therefore, the distance the seam is from the edge of the cloth is very slightly less than $\frac{1}{4}$ ", what is often called a 'scant quarter inch'. Since these units have differing quantities of seams, if your seam allowance is not accurate, your blocks may not end up the stated size and may not fit together perfectly.
- To test and set your seam allowance, cut from scraps 3 same-size pieces, such as $1\frac{1}{2}$ " x 4" (3.81cm x 10.16cm). Sew the 3 pieces together side by side, press as directed in the pattern, and then measure the center piece from seam to seam. It should be exactly $\frac{1}{2}$ " smaller than the cut width. If smaller, your seam allowance is too large. If larger, your seam allowance is too small. Adjust your needle position and/or seam guide and test again until it is accurate.

Appliqué

Appliqué is used to create the layered look of this quilt. Appliqué pieces will be added both as each panel is sewn and after the panels are sewn together.

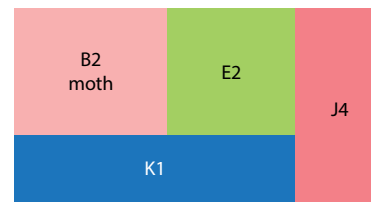

For machine appliqué: Press the $\frac{1}{4}$ " (.64cm) seam allowance to the wrong side to finish the edges. Place the appliqué piece, right side up, as indicated in the instructions and pin in place. Edgestitch by machine, using invisible thread, around the appliqué piece.

For hand appliqué: Repeat as above, but use your preferred hand sewing thread and hand stitch in place.

Finishing

33. Sew together the $2\frac{1}{2}"$ (6.35cm) **Fabric C** binding strips end to end using diagonal seams. Press seams open. Press the binding strip in half wrong sides together.
34. Layer backing (wrong side up), batting, and quilt top (right side up). Baste the layers together and quilt as desired. Trim excess batting and backing even with the top after quilting is completed.
35. Leaving an 8" (20.32cm) tail of binding, sew the binding to the top of the quilt through all layers matching all raw edges. Miter corners. Stop approximately 12" (30.48cm) from where you started. Lay both loose ends of binding flat along quilt edge. Where the loose ends meet, fold them back on themselves and press to form a crease. Using this crease as your stitching line, sew the two open ends of the binding right sides together. Trim seam to $\frac{1}{4}"$ (.64cm) and press open. Finish sewing binding to quilt.
36. Turn the binding to the back of quilt and hand-stitch in place.
